The A.S. in Radiologic Technology (Track A) Program

is a blended program that delivers academic courses online and in person. The program provides hands-on lab courses with clinical rotations.

The program curriculum

provides students with the technical, clinical, and interpersonal skills necessary to succeed in this field.

Campuses conduct courses online and in classrooms equipped with audiovisual teaching aids, anatomical charts, and models, and fully operational radiography equipment.

Clinical Rotations are a crucial part of our program, facilitating the development of students' clinical skills and hands-on training in a professional imaging environment.

We are Accredited & Approved

- Institutionally accredited by the Accrediting Bureau of Health Education Schools.*
- Approved to operate by the California Bureau for Private Postsecondary Education.**
- Programmatically approved by the California Department of Public Health, Radiologic Health Branch as a radiographer school.
- Programmatically accredited by the Joint Review Committee on Education in Radiologic Technology.
